Washington, DC 20554

Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

I am on a fixed income and chose prepaid wireless service for my cell phone because of that. If you chose to raise rates then I will probably get rid of my phone and I hope others that are in the same situation will do the same. LEAVE THINGS ALONE!!! People are tired of paying high prices for everything just because you people think you can get away with it. Why don't you pick on all you people who make thousands of dollars a week and make them start paying taxes like everyone else and then you wouldn't have to raise all these prices all the time. Thank you for your time and consideration.

cc: Marlene Dortch, Secretary

Sincerely,

Kathyq McKillip
